By

The superheroes just got back from the monster truck place and Henry said, "After all the fighting I think we deserve a vacation". So, they went to their hideout. And then they went camping. They heard a noise. They went outside and they were walking in the deep dark woods. And then a black bear jumped out! The superheroes started running, and they found bones. The bones of the dead person were holding an axe. They grabbed the axe, and they fought the bear. But it did not work on the bear. Fred said " Henry, grab a rope and a net, I will call the 100 men to help me". The 100 men chased the bear back to the hideout and it got trapped in the net. They found a new habitat, and they put the bear in the forest with delicious berries. They relocated the bears home.

So, they went back to their houses and they camped in their back yard.
