

The Aliens come back

By Gabo

The superheroes were at the library. Suddenly a giant flying saucer came. Three aliens came out of the flying saucer. "I thought we defeated the aliens! Their back?!" said Henry. Jane said, "Oh no!" So the superheroes ran towards the flying saucer. The three aliens said, "The queen is going to be here in an hour". "Wait, you aliens talk!?". 155 more aliens came out of the flying saucer. "One of the aliens said the Queen is going to be here in 1 minute". The Queen arrived in an even bigger flying saucer. 5 minutes later, one of the aliens said "It's safe for the Queen to come out". The Queen created a force field. She used her magic powers to create a rope. She tied the superheroes with the rope. Fred said, "if this is the end, I'm glad we are together". "Wait, we have churkins to cut the rope!" They fought the

aliens. So they locked her powers in their new hideout. The Queen said “I’ll be back!!”.

All the 155 aliens got back in the flying saucer.
